## **Report of the Superintendent of Schools**

To the School Board and Citizens of Alton:—

This is my sixteenth annual report as superintendent of the Alton public schools.

### **STATISTICS**

The statistics for the school year ending June 30, 1928, are as follows:

Total registration, 220; 111 boys; 109 girls; average membership, 205; average attendance, 194; percent of attendance, 95. Number neither absent nor tardy was 21. There were six tuition pupils in the high school. Number of visits by school board members was 19; by the superintendent, 243; by citizens, 178. Fourteen school board meetings were held.

### **SCHOOL FINANCES**

It is doubtful if any town in the state gets better returns for the money appropriated for schools than does Alton. The strictest kind of economy consistent with the best returns is maintained. Rigid economy for the last two years has given the school board opportunity to paint the high school building, and make necessary repairs on the other buildings without asking for an extra appropriation. With good planning and with some more state aid than the year before \$2,000.00 was taken from the budget for elementary schools. All of the buildings in which schools are now in first-class condition. The

need at the present time is the replacement of the old school desks in the grade rooms. They have been used so long that many of them are in poor condition.

The same amount of appropriations will be necessary as last year to maintain the standard of the schools.

#### TEACHERS

It is for the best interests of the schools to have as few changes in the teaching force as possible each year. We have been fortunate again in having only one vacancy and that has been well filled. All of the teachers are capable, well-trained and self-sacrificing and are doing the best they know how for every child in the schools. Any children who are not getting on well in school are likely to be the ones who do not pay proper attention to their work. I commend the work and faithful interest of the janitors, without whose cooperation the teachers could not do their best work.

#### RANKS AND ATTENDANCE

It is very important that children attend school regularly and the law provides for that unless children are sick and unable to attend. Nearly all tardinesses can be avoided. The child who is tardy from his own carelessness, or that of his parents, is a truant in the eyes of the law. Perhaps the responsibility is mostly on the part of parents rather than on the children. We have only now and then a case of this kind in Alton.

Rank cards are sent to parents and guardians at the end of each six weeks. Rank cards are used to give a little touch between the parents and the schools. The difference between a mark of E and G may be only one one-hundredth. Parents need worry only when the work, effort or conduct is unsatisfactory. Parents are asked to sign the cards and return them to the school, so that the school officials may know that the card reached the home and was looked over. The card may go back unsigned if the parent so desires.

## HIGH SCHOOL

On account of the sickness of the headmaster, Mr. O. A. Lester, his report is omitted. I may say that the high school has about the same number from year to year. The number of tuition pupils is a little less than usual. The extra-curricula activities are maintained—entertainments, dramatics, athletics, with the exception of basketball, hot lunches, musicals, etc.

The usual number of high school graduates entered college or other institutions last fall.

The poultry project in agriculture has been unusually successful. The annual production of plants from the greenhouse was better and larger than usual and their quality highly creditable.

## CHILD WELFARE LAWS

Chap. 379: Sec. 5. "No minor under the age of eighteen years may be admitted at any time to, or permitted to remain in, or at places of amusement known as dance-houses and concert saloons; or a licensed billiard or pool room, unless accompanied by parent or guardian." (Violation not more than twenty dollars).

Chap. 379: Sec. 7. "It shall be unlawful for any person to admit any child under the age of fourteen years to any show or place of amusement required by law to be licensed, after sunset, or before sunset during the hours the public schools are in session, unless he is accompanied by a person of the age of twenty-one years or over; or to permit any such child to remain in the show or place of amusement after the person in charge is informed or has reason to believe the child is under said age and is not accompanied by a person as above required." (Violation not more than ten dollars or imprisonment for thirty days or both.)

Chap. 379: Sec. 19. "If any person shall sell cigarettes or tobacco in any form to a minor he shall be fined not more than fifty dollars."

Chap. 379: Sec. 20. "If any person other than the

minor's parent or guardian shall give or deliver any cigarette, snuff or tobacco in any of its forms to any minor under eighteen years of age, he shall be fined not more than fifty dollars.

#### CITIZENSHIP

The supreme task of the schools is to help the children become good citizens. Children should recognize the authority of the home, school and state, and become obedient thereto. Parents should religiously avoid taking the part of children against any constituted authority except in the greatest emergency. You may be sure that all of the school officials and teachers are doing as well as they know to conserve the best interests of your children.

We appreciate the kindly cooperation of school board, teachers, janitors, transportation agents, parents and children in the School District of Alton and we welcome, as always, constructive criticisms of the public schools in which we are all so deeply interested.

Respectfully submitted.

F. U. LANDMAN, Superintendent.  
Alton, N. H., February 1, 1929.
